A. H. Thune's Remarkable Case.
A. H. Thune, manager Wills Creek
Coal Co., Buffalo, O., writes: "I have been
afflicted with kidney and bladder
trouble for years, passing gravel or
stones with excruciating pains. Other
medicines only gave relief. After tak-
ing Foley's Kidney Cure the result was
surprising. A few doses started the
brick dust, like fine stones, and now I
have no pain across my kidneys and I
feel like a new man. Foley's Kidney
Cure has done me \$1,000 worth of good."

MEN'S HATS IN KOREA.

The Reason They Are Wide Brimmed,
High and Fragile.

In a lecture on Korea, Burton Holmes,
speaking of the men's hats, said:

"Though Korea and especially Seoul
has many foreigners and the people
have become accustomed to strangers,
they adhere closely to their curious
costumes, the hat being the most im-
pressive part of the garb. The Korean
gentleman never removes his hat in the
presence of company, either in the
house or outside. The hat must be
worn constantly during waking hours.

"The hat consists of a wide brim and
a crown high enough to contain the
topknot. The hats are made of many
materials and vary in price from \$2 to
\$40. Their form dates back to a time
centuries ago, when a king who was
fearful of plots and conspiracies de-
vised the head wear as a protection
against his noble enemies. If men
could not get their heads together, he
argued, they could not engage in a
conspiracy, so he issued an edict com-
pelling his courtiers to wear hats with
gigantic brims. Then in order to pre-
vent fighting on the street he ordered
that these hats be made of a thin
porcelain. In case of a fight the hat
would certainly be broken. This would
necessitate explanations from the no-
bleman, and street rows were thereby
ended.

"Though the hats are no longer made
of porcelain, they are sufficiently frag-
ile to be broken if the wearers engage
in any violent demonstrations."

Best Cough Medicine For Children.

When you buy a cough medicine for
small children you want one in which
you can place implicit confidence. You
want one that not only relieves but
cures. You want one that is unques-
tionably harmless. You want one that
is pleasant to take. Chamberlain's
Cough Remedy meets all of these con-
ditions. There is nothing so good for
the coughs and colds incident to child-
hood. It is also a certain preventative
and cure for croup and there is no dan-
ger whatever from whooping cough when
it is given. It has been used in many
epidemics of that disease with perfect
success. For sale by G. C. Stone, drug-
gist.

ANIMAL LANGUAGE.

**Sounds and Gestures That Take the
Place of Speech.**

A sound or gesture made by an animal
under any mental or emotional im-
pression and calling out a similar
one in another animal is an element
of language. When the rabbit quickly
beats the ground, its fellow rabbits
know that there is danger somewhere,
and they take action accordingly. That
is rabbit language. When the hunter
imitates the rabbit and thus conveys
the same ideas, he is "speaking" the
rabbit language for the time being.

Many animals use signs, which of
course are understood through the
eyes. The ants converse by touching
antennae and feet. Many insects rub
the elytra. This is animal language
in its simplest form. It expresses but
few ideas. But there are animals
which are capable of modulating their
"voices."

Even the common rabbits, which
seem to be mute, are constantly mak-
ing sounds, which a little observation
will soon discover to be ever changing
in volume, modulation, etc. Much of
this method of communication changes
when the animal is brought into civi-
lization from the wild state. The wild
dog, for instance, barks very little
when in freedom. How the household
dog barks and is able to express him-
self is well known.

**Nothing Equal to Chamberlain's Colic,
Cholera and Diarrhoea Remedy for
Bowel Complaints in Children.**

"We have used Chamberlain's Colic,
Cholera and Diarrhoea Remedy in our
family for years," says Mrs. J. B. Cooke,
of Netherlands, Texas. "We have given
it to all of our children. We have used
other medicines for the same purposes,
but never found anything to equal
Chamberlain's. If you will use it as
directed it will always cure." For sale
by G. C. Stone, druggist.

The Blue Gnu.

It would be hard to imagine a more
fantastic looking animal than the blue
gnu, which ranges in South Africa
from the Orange river north to Victo-
ria Nyanza. It suggests to one coming
unexpectedly upon it and seeing it for
the first time a sort of impossible
dread creature, a cross perhaps be-
tween a buffalo and a nightmare. To
the buffalo belong the neck and horns,
but the tail and the hind quarters are
those of a horse. The legs are a deer's
legs, but the head resembles that of no
other living animal. There seems to be
no doubt that the wild grotesqueness
of the appearance of the gnu is a pro-
vision of nature to protect the animal.
When frightened or disturbed these re-
markable antelopes go through a series
of strange evolutions and extraordi-
nary postures in order to enhance as
much as possible the oddity and hid-
denness of their appearance and to
frighten away intruders.

Sciatie Rheumatism Cured.

"I have been subject to sciatie rheu-
matism for years," says E. H. Waldron,
of Wilton Junction, Iowa. "My joints
were stiff and gave me much pain and
discomfort. My joints would crack when
I straightened up. I used Chamberlain's
Pain Balm and have been thoroughly
cured. Have not had a pain or ache
from the old trouble for many months.
It is certainly a most wonderful lin-
iment. For sale by G. C. Stone, druggist.

THE FIRST BANKS.

They Were Established in Italy in
the Ninth Century.

The first banks of which we have re-
cord were established in Italy so far
back as 808 by the Lombard Jews,
who had benches, or counters, erected
in the market places for the exchange
of money and bills. It is from their
banco, or bench, that banks have taken
their name.

The earliest bankers were also gold-
smiths and dealers in precious stones,
but with the advance of civilization
banking became a distinct business.
Merchants had deposited their cash in
the mint in the Tower of London until
Charles I. laid hands upon the money
in 1640. In 1645 traders agreed to
lodge their money with the goldsmiths
of Lombard street, who had strong
chests for their own valuables, and
this was the origin of banking in Brit-
ain.

The chief banks in Europe were es-
tablished as follows: Venice, 1171; Ge-
nova, 1345; Hamburg, 1619; Holland,
1635; Bank of England, 1694; Scotland,
1695; Ireland, 1783; France, 1803; Unit-
ed States, 1816.

The Property Called Health

Runs down or improves, just depends
on how it is cared for. It is the most
valuable property we have, and should
receive the most consideration. It helps
you in business, helps good looks, helps
makes friends, helps get situations and
help you hold them, and always makes
happiness. Property like this, at the
first indication of being out of repair,
should be looked after and a remedy ap-
plied at once. There are any number of
signs that show repairs are needed.
Bilious spells, indigestion, dyspepsia,
belching, dizziness, sick-headache, sallow
complexion, pimples and liver spots on
the face, a drowsy feeling after meals,
sour stomach, etc. These symptoms all
show loss of health. Druggists will sell
you for 25c a box of Dr. Gunn's Improv-
ed Liver Pills, a sure cure for all of
these diseases. Sold by Stone & Mercer.

Handwriting on Iron.

It was an accident that led to the
discovery of the method of transfer-
ring handwriting to iron. An iron
founder while experimenting with mol-
ten iron under different conditions ac-
cidentally dropped a ticket into a mold.
He presently found that the type of the
ticket was transferred to the iron in
distinct characters. Following up
the idea which this fact suggested, he
procured a heatproof ink, with which
he wrote invertedly on ordinary white
paper. This paper was introduced into
the mold before the molten iron was
poured in. When the mold cooled the
paper had been consumed by the heat,
but the ink, which had remained in-
tact, had left a clear impression on the
iron.

A Thoughtful Man.

M. M. Austin, of Winchester, Ind.,
know what to do in the hour of need.
His wife had such an unusual case of
stomach and liver trouble, physicians
could not help her. He thought of and
tried Dr. King's New Life Pills and she
got relief at once and was finally cured.
Only 25c, at F. G. Bland's and Stone &
Mercer's drug stores.

Ungainly, but King of Soaring Birds.

No one would be likely to imagine,
for example, that so heavy and, in fact,
apparently ungainly a bird as a pelican
is a king among soaring birds. After
much flopping when these great
birds have acquired headway the
broad wings are spread, and in majes-
tic circles they mount skyward, with
only an occasional flap of the wing, of-
ten passing beyond the range of one's
vision.—Country Life in America.

A Modest Petition.

Little Johnnie had been taught to
ask a blessing at the table. One morn-
ing there was company present to
breakfast, and Johnnie, being a little
embarrassed, made the following brief
petition, "O Lord, forgive us for this
food."—Lippincott's.

Robbed the Grave.

A startling incident is narrated by
John Oliver, of Philadelphia, as follows:
"I was in an awful condition. My skin
was almost yellow, eyes sunken, tongue
coated, pain continually in back and
sides, no appetite, growing weaker day
by day. Three physicians had given me
up. Then I was advised to use Electric
Bitters; to my great joy the first bottle
made a decided improvement. I con-
tinued their use for three weeks and am
now a well man. I know they robbed
the grave of another victim." No one
should fail to try them. Only 50 cents,
guaranteed at F. G. Bland's and Stone &
Mercer's drug stores.

Not the Only One.

There are Hundreds of Clarksburg
People Similarly Situated.

Can there be any stronger proof of-
fered than the evidence of Clarksburg
residents? After you have read the
following, quietly answer the question
Jacob Bloch, merchant tailor, 320 W.
Main street, says: "Owing to kidney
and bladder trouble, I suffered far more
than can be expressed in a short sen-
tence, and this condition has existed for
over five years. Lately the continual
pain across my back, not sharp, but of
a dull, disagreeable nature, made it un-
pleasant and almost impossible for me
to attend to my calling with any degree
of ease, and I often wished I could find
some medicine which would bring relief.
I always thought there was something
that could be depended upon to stop kid-
ney complaint, and this led me to try
Doan's Kidney Pills. They certainly
helped. The backache ceased and the
bladder trouble was relieved. I will have
no hesitation in advising anyone I hear
complaining of backache or kidney com-
plaint in any form to go to Wells &
Haymaker's drug store for Doan's Kid-
ney Pills."

BLOWING HOT AND COLD.

**How Iron and Steel in Losing Heat
Rise in Temperature.**

The phenomenon of a substance ris-
ing in temperature while losing heat,
known as "recalcence," which was
first observed by Professor Barrett
and investigated by Dr. Hopkinson,
has been noticed in the case of iron at
a high temperature. A piece of iron
was heated to about 800 degrees C. and
then allowed to cool slowly. At this
temperature it is bright red, but on
cooling to about 785 degrees C. a sud-
den disengagement of heat takes place;
the iron rises in temperature and
glows with a brighter red.

This phenomenon was investigated
more accurately by Hopkinson in the
case of steel. Round a bar of this
metal he wound a coil of copper wire
insulated with asbestos and jacketed
with layers of asbestos paper. The
temperature of the wire was followed
during the experiment by connecting the
coil to a Wheatstone's bridge to
find the variation in its resistance and
from this the variation in temperature.
The steel bar was then heated bright
red in a furnace and allowed to cool.
The temperature fell regularly to 685
degrees C., then rose to 712 degrees
C., when it again diminished.

The Good of Medicine.

People insisting that medicine does no
good, have one stubborn fact to contend
with, that is, the people who do believe
are greatly in the majority. We have
been so fortunate during the past 20
years as to convince thousands of suf-
ferers with weak water blood, who had all
the symptoms of a general breaking
down of the system, that one medicine
at least does good. Nervous and unsteady
people, weak, fleshless people, pimply,
pale or staid people can have strong,
steady nerves, and solid healthy flesh by
the use of Dr. Gunn's Blood and Nerve
Tonic. A tablet to take at meal time
it turns the food you eat into
